The study is to find available sites for commercial use or home construction. It is a two-year extension, and there is no cost associated.

III. DEPARTMENT OF ENGINEERING & PUBLIC WORKS **Ronald Zuber, Acting Director**

The Acting Director asked to add one additional Resolution to award a bid for the 2006 Road Resurfacing plan.

Chairman Mirabella asked Acting Director Zuber to provide a priority list for the above resolution and to speak about Resolutions 4, 5 and 6 and asked the Acting Director to explain the increase.

Acting Director Zuber responded by saying that Resolution #4 was for the increasing price of fuel. This is a two year contract ending on February 1, 2007 and the additional funds should carry the County through the end of the contract term.

Jeff Sias, County Engineer, responded to Resolution #5 and explained that in December 2005 an oil system was removed and there was gasoline found in the soil. Upon direction from the NJ Department of Environmental Protection, the site required ground well monitoring for another year. Regarding Resolution #6 at the same site as the oil system removal the Department of Public Works in Scotch Plains the new contract is to extend another year by state mandate.

Chairman Mirabella asked if the soil has improved as a result of the efforts to remediate the soil and County Engineer Sias said that there was a reduction in the numbers.

Freeholder Sullivan asked if in Resolution #4 the Acting Director was speaking about heating oil. Acting Director Zuber explained that this was diesel fuel for trucks.

Director of Purchasing Michael Yuska explained that the oil prices were controlled by Newark Tank Car Seller Price. The vendor only charges five cents over the Newark Tank Car Seller Price to deliver. Fuel prices have nearly doubled causing this contract to do the same.

Freeholder Estrada asked if a price was locked-in when we initiated the original contract. Director Yuska explained with respect to fuel price, the base price is set by the Newark Tank Car Seller Price and the vendor bids on his profit. The County's vendor is making five cents per gallon over the Newark Tank Car Seller Price.

Freeholder Sullivan asked if we had any agreements with the municipalities to create more leverage. Director Yuska responded by saying that most of the municipalities are already in the cooperative and that five cents over the price for delivery was the best price achievable.
